With meticulous attention to detail and bespoke furniture created by the finest of craftsmen (many of which are local), Affine elevated the design of each suite

Each Signature Suite is a masterpiece in design conceptualised in partnership with internationally renowned Affine Design, showcasing a more contemporary look in keeping with the studio's known style. A nod to Tuscan lifestyle can be found through the traditional materials and fabrics which have been used thoughtfully throughout the space.

With meticulous attention to detail and bespoke furniture created by the finest of craftsmen (many of which are local), Affine elevated the design of each suite. With the landscape surrounding the property that evolves with each season, Affine was able to craft a concept that lives in harmony with the outdoors. Think terracotta and brown tones during the warm autumn months, yellow and dark green at the peak of summer, vibrant and fresh green tones in spring and grey green colors in the cooler winter months. These colors were combined to create a cohesive space and result in luxurious yet comfortable interiors, providing an oasis of tranquility and indulgence for the luxury traveler. Every detail of the furnishings, such as fine materials, elegant fabrics and bright colors, were put together to showcase the true essence of Castelfalfi.

“Working with Affine Design was an obvious choice,” explained Roberto Protezione, Toscana Resort Castelfalfi’s general manager. “When we started contemplating the renovation of Castelfalfi, Affine’s concept and design stood out to us as it was completely in line with our vision of the future. We wanted our suites to provide an immersive experience, where guests could feel at one with nature, all the while being surrounded by a luxurious, refined, and comfortable interior, resulting in an immediate at-home feeling. The collaborative works from Affine and other designers across the property demonstrate a tribute to Italian craftsmanship and have resulted in an all-encompassing transformation of Castelfalfi.”

Castelfalfi – owned by the Lohia Family – has undergone a multi-million pound renovation to elevate its facilities for its clientele, unveiling new public spaces, guest rooms and suites, including brand new restaurant Olivina, with talented chef Davide De Simone at the helm.

Located in the heart of the Tuscan hills between Florence and Pisa, the property is set amidst an incredible rolling landscape made up of vineyards and olive groves, famous cypresses and giant pine trees; and includes the medieval 'borgo' with its ancient castle. La Spa, which is reopening in the autumn of 2023, will give guests the ultimate relaxation experience; an indoor/outdoor infinity pool will take center stage, set in perfect harmony amongst the Tuscan Hills.

Traditional rituals and contemporary treatments, performed by highly trained therapists using a holistic approach, will improve guest's general wellbeing, reinvigorating body and spirit in complete harmony with the beautiful surroundings. Until the renovation helmed by Affine Design is complete, guests are still able to enjoy treatments in a designated 'pop-up spa', found in La Tabaccaia, one of the estate's magnificent historical buildings.
