

Castelfalfi Reopens For The Summer Season With A New Contemporary Aesthetic

By Tatiana Rokou

NEW YORK, NY – Toscana Resort Castelfalfi, is a 151-room five-star luxury hotel located in the historic village of Castelfalfi in Tuscany, Italy. The hotel reopened for the season under new ownership after an extensive redesign leading to a new contemporary aesthetic featuring a restyled lobby & entrance, updated guest rooms & suites, apartments (available for rent or sale), authentic guest experiences, and public spaces.

Designed to immerse guests, and locals, in the pleasures of Tuscan living, Castelfalfi offers an onsite vineyard, which has been revamped, and is responsible for making all the property's wine, award-winning olive oil. The estate boasts a 27-hole golf course, which is the largest and most challenging in the region.

In celebration of the reopening, Castelfalfi has crafted over 40 new, unique guest excursions including wine tours & tastings, olive picking, oil & cheese tasting, truffle hunting, beekeeping, cooking classes, and more experiences steeped in Tuscan culture.

The estate also launched the "Castelfalfi Adventure Park", where thrill-seekers can partake in archery, survival courses, tree climbing, and more. The village of Castelfalfi dates back over 2,000 years, and was most recently acquired in 2021 by enlightened Indonesian entrepreneur Sri Prakash Lohia.
